

Level Control

Monitor Technologies are firmly established as one of the worlds leading manufacturers of level control equipment. In our capacity as sole UK distributor we are able to offer a comprehensive range of continuous and point level indicators for virtually all applications involving free flowing powders, granular materials and liquids.

KA Rotary Paddle Switch

- Heavy duty design
- Rugged cast aluminium housing with screw cap
- Comprehensive range of paddle configurations
- High temperature versions
- Pulse output model for ground level test
- ATEX versions available

SafePoint Rotary Paddle Switch

A new generation of 'failsafe' rotary level switch ideal for critical applications:

- Unique 'failsafe' design
- Self monitoring diagnostics
- Patented magnetic sensing technology
- Separate output relays for level and fault
- Bright LED operational status indicator

TrueCap Capacitance Switch

- Failsafe design
- Radio frequency for superior sensitivity
- Driven shield immunity to probe build-up
- Bright LED operational status indicator
- Solid or flexible probe options
- High temperature split architecture options

TrueCap Excel Capacitance Switch

All the benefits of the TrueCap plus additional features for exceptional performance and reliability:

- Remote test facility
- Remote calibration and sensitivity adjustment
- Automatic temperature compensation
- Push button calibration
- Universal power supply

Sole distributor for
Monitor Technologies

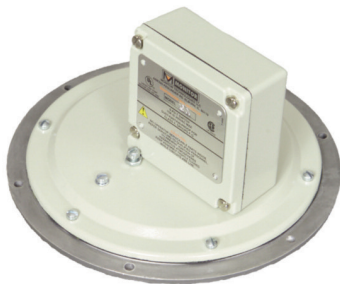

SiloPatrol

- Robust cable-based smart sensor system
- Virtually maintenance free operation
- SMU sensor requires no field adjustment
- Simple and easy to intergrate in your process
- Reliably monitor silos, tanks & bins up to 150ft in height
- No more working at height

VibraRod Vibratory Switch

- Failsafe design
- No calibration necessary
- Unaffected by changes in material
- Reliable single rod design
- Adjustable time delay
- Universal power supply
- Rigid extension and flexible probe options

Binatrol® Diaphragm Switch

- Economical point level detection
- Non-intrusive flush mount design
- Unique external installation and maintenance
- Site proven for over 20 years
- Various diaphragm materials to suit application
- Ultra sensitive switch for lightweight materials

Tilt Switch

- Reliable, trouble free operation
- Low cost
- No calibration
- Minimal maintenance
- Heavy or lightweight versions
- Ideal for a wide range of applications
