## CAMS Screw Conveyors

# ProSpare

CAMS screw conveyors incorporate unique patented technology to ensure more reliable operation for trouble free cost effective performance. The introduction of labyrinth protected hanger bearings and screw flight connections is a major step forward in screw conveyor design. Labyrinth protected hanger bearings offer extended service life resulting in less maintenance, lower running costs and safer operation. CAMS screw conveyors are supported in the field by our market leading technical support and spare parts service.

**Patented labyrinth protection**

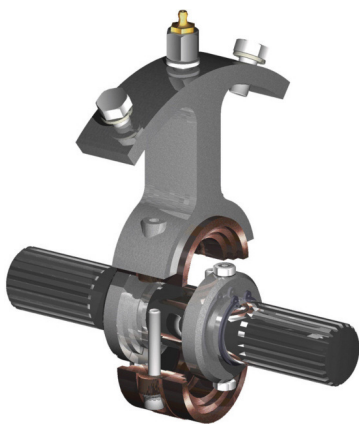

**Reliable operation**

**Lower whole life cost**

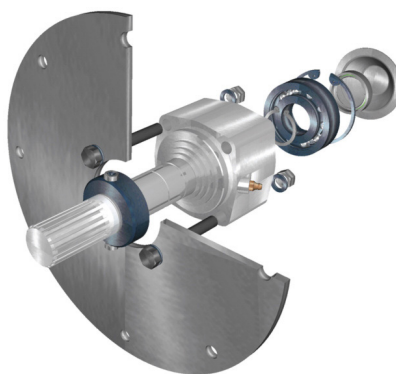

**Ex-stock availability**

**Free design service**

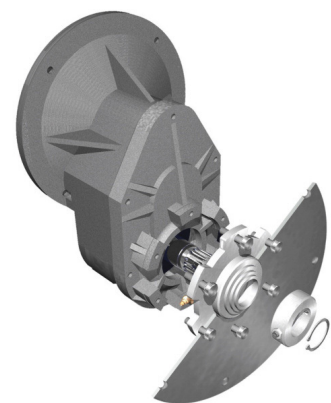

In response to customer demand ProSpare stock a wide range of screw conveyors in common sizes, see overleaf for details. The screw conveyor application questionnaire is available to help simplify the specification process, clearly setting out data requirements, to allow a quotation to be prepared. We supply a wide range of ancillary components and offer a one stop solution for all your powder handling needs.

New labyrinth protected hanger bearing for longer service life

Engineered for maximum accessibility and user friendly maintenance

Gearboxes manufactured in-house to ensure highest levels of reliability

Sole Agent in  
UK and Ireland
